International Gaffer based in Barcelona

Fluent English and Spanish

With experience working internationally and across diverse regions, I specialize in high-end commercial productions, leading lighting teams for global campaigns and large-scale shoots. I thrive on turning elevated visual ideas into lighting that is creative, expressive, and technically solid. Known for being hands-on, solution-driven, and keeping the mood positive no matter the challenge — always with a smile.

I was drawn to cameras since a young age — starting in the skate scene and evolving through a deep passion for cinema and photography. I was lucky to be mentored by top international Gaffers like Javier Catalán and Carlos Melville. Today, I bring a mix of calm, intuition, and adaptability to every project — values I've gathered over the years — while always lighting with purpose.
